OBJECTIVE

I am a creative and highly motivated web developer seeking to leverage my strong development, analytical, and technical skills in order to develop practical solutions that meet business needs.

EXPERIENCE

Freelance Web Developer

Website Design & Development (May 2013- Present)

· Developing, standards-based, secure, and responsive websites for clients

· Performing routine maintenance tasks such as backups and content updates

· Supplying clients with reliable, hassle-free webhosting and support

Durham College Communications and Marketing

Web Specialist (2017 - Present) | Assistant Web Specialist (May 2015 - 2016)

· Develop, manage, and maintain organization's various Wordpress properties

· Project lead in developing responsive, cross platform interactive campus map

· Perform regular maintenance, updates, quality assurance and accessibility updates to multiple websites

· Work with clients across the institution and provide technical solutions to meet business needs

Ideal Computer Technology, Ltd.

Computer Technician (summer + part time, 2010 - 2015)

· Assisted customers both on-site and in-store

· Worked with a team and independently to diagnose and solve problems

· Researched and diagnosed hardware and software issues
